The Board also Ordered, That the Secretary should reply to the communication of the Commissioners of Wide Streets, respecting the Four Courts; stating, that though the intention of insulating that Building, so as to secure it against the hazard of Fire, had not been relinquished, the question would with more propriety be determined by the Benchers of the King's Inns, to whom the Board accordingly referred them.

AND that, at a Meeting of the said Commissioners, at the house of the Right Honourable the Lord High Chancellor, on Thursday the 4th day of April 1822, the Secretary stated, that Copies of Mr. Ball's Report, respecting the Statutes, were in preparation for the several Members of the Board against their next Meeting, on the 22d of the same month: After which, the 13th and 14th Half-yearly Reports of the Committee of Observation, mentioned in the last Minutes, were laid before the Board; and The Board having already adverted to the removal of the Records of the Prerogative Office, and ordered the transfer of the Will and Administration Indexes, &c. to be made; and having now taken into their consideration the completion of the Buildings of the King's Inns, and the recommendation made by them last year to the Chief Secretary of the Lord Lieutenant, respecting the fitting-up of the Apartments allotted to the Auditor General's Records, and the measures taken by the late Chief Secretary thereon, Ordered, That the Secretary should write, in the name of the Board, to the present Chief Secretary, representing, that it would be expedient that means should be forthwith taken for fitting up the Apartments in the Upper Story of the King's Inns, allotted for the Auditor General's Records, those of the Court of Appeals, and the Diocesan Registry of Kildare; and that the Secretary should expedite the removal of the contents of the said Offices in the course of the ensuing Summer; And they Ordered also, That an application should be made to the Society of the King's Inns, to ascertain what steps had been taken by them under the Letter of the Commissioners of Wide Streets, referred to them by the Board, under their Order of 31st of May last.

Thursday,
4th April 1822.

The Secretary then stated, That, since the last Meeting of the Board, 150 Copies of their Reports and Proceedings had been transmitted from London, by the Printer of the House of Commons, for the disposal of the Board, agreeably to the Order adopted on the publication of the First Volume; whereupon The Board Ordered, That the Secretary should proceed to supply forthwith the several Members of the Board and the Sub-Commissioners now employed under it; as also the Judges, and the Archbishops and Bishops, and the several Public Offices and Boards throughout Ireland, who were supplied on the former occasion; and that such Copies as should still remain undisposed of be preserved in the Record Tower, in the care of the Secretary, until further Order.

AND that, at a Meeting of the said Commissioners, at the house of the Right Honourable the Lord High Chancellor, on Monday the 23d April last, the Secretary then stated, that he had, agreeably to the instructions received at the last Meeting, examined into the state of the Repertory that had been formed to the Decrees of Chancery, and found, that it had been brought up to the year 1816; and, with the view of enabling the Clerks in the Rolls Office to continue the same from year to year, The Board Ordered, That the Repertory be forthwith continued to Hilary Term 1822, and thereupon be delivered over to the Deputy Keeper of the Rolls.

Monday,
23d April 1822.

After which, that part of the Report of the Committee of Observation, dated the 18th of January 1819, respecting the continuation of the Calendar of the Patent Rolls to the Revolution, was read ; and The Board having taken into consideration the facilities afforded, by adopting Mr. Lodge's Repertory, in continuation thereof, it was Ordered, That the Committee of Observation should take the necessary steps for continuing the Calendar, from the commencement of the Reign of James I. to the period of the Revolution, so as to render the labours of Mr. Lodge available to the Public.

The subject of the Statutes was then brought forward, as also the several Orders, Reports, and Proceedings respecting that Work, together with an Estimate of the Expense of printing the intended Edition, with the view of coming to a final decision thereon, previously to the completion of the Annual Report ; and the same having been fully considered, the subject was further adjourned to Ascension Day, for a full Meeting of the Commissioners.

After which, a Letter, dated 1st November 1821, and addressed by Mr. Hardiman, one of the Sub-Commissioners, to the Committee of Observation, was then laid before the Board, respecting a proposed Inquiry after Irish Records on the Continent ; and the Board considering the feasibility of such an Inquiry, and its great value (if successful) in any of its points, and that it would not be attended with any expense to the Commission, were pleased to sanction it with their approbation, and directed the Secretary to take measures accordingly.

Thursday,
16th May 1822.

AND, at a Meeting of the said Commissioners, at the house of the Right Honourable the Lord High Chancellor, on Thursday the 16th day of May last, the last Meeting of the Board having been adjourned to this day, for the purpose of coming to a final decision respecting the printing of the Statutes, previously to completing the Annual Report for Parliament ; and the several Orders, Reports, and Proceedings, respecting the intended Edition of that Work having been again brought forward and considered ; the final determination of this question was postponed to a fuller Meeting.

Wednesday,
19th March 1823.

AND that, at a Meeting of the said Commissioners, at the House of the Right Honourable the Lord High Chancellor, on Wednesday the 19th day of March instant, The Board having resumed the consideration of the printing of the First Volume of the Statutes, which, with the several Orders, Reports, and Proceedings respecting the intended Edition of that Work, had stood over since the last Meeting, the question was further adjourned ; and it was Ordered, That in execution of the Minute of the 31st May 1821, the Supplemental Volume therein mentioned should be prepared for the press by Mr. Ball, containing the several corrections made by the Sub-Commissioners ; but that previously thereto, it should be referred to the Committee of Observation, to consider and report as to the best and least expensive mode of publishing the same.

The 15th and 16th Half-yearly Reports of the Committee of Observation, made to the Board, and dated the 22d November 1822, and 29th January 1823, respectively, having been read ; the Secretary stated, that on the 15th January last he had addressed a letter to the Right Honourable the Chief Secretary of the Lord Lieutenant, respecting the state of the Auditor General's Records, and the necessity of completing the Apartments allotted for them in the King's Inns Buildings ; and that he has been since informed, that the expense required for that purpose would be included in the Estimates for the current year. With respect to the insulation of the Four Courts, the Secretary stated, that, since the date of the Answer from the Treasurer of the King's Inns Society in April last, he had received a Letter from the Commissioners of Wide Streets, requesting an immediate decision, so far as related to the site of the Meeting-house adjoining the Four Courts, and enclosing a Copy of a Memorial from the Ministers, Elders, and Congregation of that Meeting-house on the subject, Copies of which Letters and Memorial he had immediately transmitted to Mr. Sandes, to lay before the Benchers ; and that in the month of August last, he had received another urgent communication on the subject, all of which he then laid before the Board : Whereupon it was Ordered, That the Secretary should write, in the name of the Board, to the Benchers of the King's Inns, requesting to know, whether their standing Committee have made any Report, and what determination they have come to on the subject.

The Secretary then stated, that the fair Transcripts of the Indexes, formed to several of the Auditor General's Records, and of the Repertory to the Chancery Decrees, had been deposited with the Auditor General

General and Deputy Keeper of the Rolls respectively, pursuant to Order ; and that the original Drafts of these Indexes, &c. were preserved among the other documents of the Board in the Record Tower, under the general Order ; and that the fair Transcript of the Will and other Indexes were also ready for transmitting to the Prerogative Office, on the original Drafts being returned into the Record Tower for preservation, agreeably to Order.

The Secretary also stated, that since the last Meeting of the Board, a second lot, consisting of 150 Copies of their Reports and Proceedings, had been received from London, and has, agreeably to the Board's Order, been nearly distributed among the persons prescribed in that Order, and the several Public Offices and Boards throughout Ireland.

AND lastly, We beg leave most humbly to state to Your Majesty, That, at the present time, We have not any other Matters to offer to Your Majesty's consideration, touching or concerning the premises, or any further Measures to propose thereupon.

All which is most respectfully submitted to YOUR MAJESTY'S consideration.

subject of Expense, at the last Meeting, The Board were of opinion, That the printing of this Work should, for the present, be suspended, and that all the Materials prepared for it should be carefully arranged and preserved by the Secretary.

The Board then instructed the Secretary to inform the Committee, that due care should be taken, in executing the Orders of The Board, to keep the expenses of the Commission within the Sum estimated for the current Year; and that, in every case where it was practicable, the attention of the Sub-Commissioners should be confined to one individual Work under the Commission.

AND that, at a Meeting of the said Commissioners, at the house of the Right Honourable the Lord High Chancellor, on Thursday the 17th day of June last, being an Adjournment of the Meeting on Wednesday the 24th of March preceding, the Secretary stated that, agreeably to the Board's Order, Mr. Ball was proceeding on the Volume of Corrigenda to the Statutes, and appeared to have extracted the Various Readings, &c. contained in the first Nine Volumes of the printed Edition.

Thursday,
17th June 1824.

The Secretary then stated, the Committee had still to regret, that Provision had not been made in the yearly Estimates for completing that part of the Buildings at the King's Inns, which is intended for the Accommodation of the Auditor General's Records, at present deposited in the Dome of the Four Courts; as the further accumulation and great weight of these Books and Documents, independently of their being placed in a situation most unfavourable to their preservation and reference, have created some apprehensions with regard to the safety of the Building: Whereupon The Board Ordered, That a Communication should be made, in the name of the Board, to the Chief Secretary of the Lord Lieutenant, requesting his attention to this subject. And, with respect to the insulation of the Four Courts, the Secretary stated that no communication had been received by him from the Standing Committee, to whom the subject had been referred by the Benchers of the King's Inns: Whereupon The Board Ordered, That it be recommended to the Benchers of the King's Inns, that a joint representation should be made to the Government, respecting the necessity of insulating the Four Courts, and of securing it against the hazard of Fire; and for that purpose, that our Secretary should open a Communication with the Treasurer of the King's Inns Society.

It was then stated by the Secretary, That the fair Transcripts of the Will and Administration Indexes, contained in Nine Volumes, together with one Volume of the Index of the Cause Papers, had been transmitted to the Deputy Registrar of the Court of Prerogative, pursuant to Order; as the original Drafts of these Indexes had been returned to the Record Tower, for the Purpose of being preserved there, among the other Documents of the Board, under their general Order.

The Draft of the Annual Report to His Majesty for the last year, together with an Appendix, containing Abstracts and References to the principal Records and Public Documents connected with the Act of Settlement, &c. was then laid on the Table; when it was Ordered, That same be forthwith prepared for signing and transmitting to the Chief Secretary in London, as heretofore.

AND that, at a Meeting of the said Commissioners, at the house of the Right Honourable the Lord High Chancellor, on this day, the Secretary stated, That the further progress on the Volume of Corrigenda to the Statutes, which had been brought down to the end of the Ninth Volume of the printed Edition, had been interrupted by the lamented death of Mr. William Ball, who had been engaged, under the Board's Order, in extracting the Various Readings, &c. from the corrected Edition prepared by the Statute Sub-Commissioners. And it appearing, that this particular duty could be completed by the Secretary, with the aid of Mr. Lawson, who had been engaged in preparing the authentic Edition of the Statutes; The Board thereupon Ordered, That the aforesaid Volume be continued accordingly.

The Nineteenth and Twentieth Half-yearly Reports of the Committee of Observation, made to the Board, and dated the 5th August 1824, and the 7th March 1825, respectively, having been read; The

Board Ordered, in reference to the completion of the Building of the King's Inns, That the Secretary should ascertain whether any and what steps had been taken for that purpose ; and also, for the removal of the late Auditor General's Books and Papers from the Dome of the Four Courts to that Building ; and whether a Provision could not at the same time be made for the better security of the Records of the Consistory of Dublin.

The Secretary was also directed, at the same time, to inquire, and report to the Board at their next Meeting, whether any and what steps had been taken with respect to the Insulation of the Four Courts, and for securing them against the hazard of Fire.

With respect to the Books and Documents in the possession of the Earl Annesley, the Secretary was Ordered to take an early opportunity of examining these Documents, and reporting thereon to the Board.

AND lastly, We beg leave most humbly to state to Your Majesty, That, at the present time, We have not any other Matters to offer to Your Majesty's consideration, touching or concerning the premises, or any further Measures to propose thereupon.

All which is most respectfully submitted to YOUR MAJESTY'S consideration.

REPORT of Mr. HARDIMAN, Sub-Commissioner,
ON SCHEDULES and INVENTORIES.

Hardiman's
Report on
Schedules and
Inventories.

TO HIS MAJESTY'S COMMISSIONERS ON THE PUBLIC RECORDS OF IRELAND.

HAVING been appointed by an Order of this Honourable Board, dated the 3d day of April 1815, one of your Sub-Commissioners, to proceed, with such Assistants and Clerks as might be considered necessary, and in such manner as might be approved of by the Committee of Observation, and under their immediate direction, to carry the Order of the 31st day of July 1811, respecting Schedules and Inventories, into complete effect; I beg leave to submit to the Board, the following Abstracts of the Grants and Conveyances under the Acts of Settlement and Explanation, and the Act for the sale of the estates and interests forfeited in Ireland in the year 1688; with Indexes to the principal Documents connected with them; and a succinct account of these celebrated Acts, the proceedings taken under their authority, and particularly the various records to which they have given rise; and to which my attention had been chiefly directed from a practical knowledge of their great value and importance, in several points of view, but principally to professional persons in their researches concerning landed property in Ireland.

The Act of Settlement has been termed the legislative Title Deed of Ireland. It has been also described by Sir Audley Mervin, Speaker of the House of Commons, when it passed, as the "Magna Charta Hiberniæ." The causes which led to this important law, are fully detailed in the recital of the memorable transactions, which, for many years anterior to its enactment, distracted and convulsed this Island. It is therefore considered unnecessary, in a general view of this subject, to revert, otherwise than as contained in the succeeding Notes, to any of these transactions antecedent to the restoration of King Charles II. which happily took place on the 29th of May 1660. On the 30th of November in that year, his Majesty published his "Gracious Declaration for the settlement of his kingdom of Ireland, and satisfaction of the several interests of Adventurers (a), "Souldiers (b), and other his subjects there (c);" in which he declared, Sect. vi. That all the lands, tenements,

Declaration of King
Charles II.

NOTES:

(a) The Adventurers were such as had advanced several sums of money on the credit of the Act of 17 Charles I. for the encouragement of Adventurers, whereby it was amongst other things enacted, that such rights, titles, interests, &c. as the Rebels in Ireland, or any of them had on the 23d of October 1641, when the rebellion broke out, or afterwards should have in any lands or other hereditaments, should be forfeited to his Majesty, and should be deemed, adjudged, vested, and taken to be in the actual and real possession of the said King, his heirs and successors, without any office or inquisition thereof to be found. And for reducing the Rebels, and distributing their lands amongst such persons as should advance money and become Adventurers in the reduction, Two millions and an half of acres were to be assigned and allotted in the following proportion, viz. each adventurer of 200*l.* was to have 1,000 acres in Ulster; of 300*l.*, 1,000 acres in Connaught; of 450*l.*, 1,000 acres in Munster; and of 600*l.*, 1,000 acres in Leinster, according to English measure. And the bogs, woods, loughs, and barren mountains were to be cast into these two millions and a half of acres, and so thrown into each man's division: And out of those acres there was to be a yearly quit-rent reserved to the Crown, viz. one penny in Ulster, three half-pence in Connaught, two-pence farthing in Munster, and three-pence in Leinster: And by the said Act, a commission was to issue, to survey all the lands of the Rebels that should be forfeited, and to measure 625,000 acres in each province, casting in bogs, mountains, &c., as above: And these lands were to be divided amongst the Adventurers, by equal lot, by the Commissioners appointed under the great seal: and each allotment was to be returned into the high court of Chancery: And every Adventurer, by such allotment, was to be in actual seizin of his share. And by the Act every person, within three months after allotment, that should have 1,000 acres in Leinster, 1,500 in Munster, 2,000 in Connaught, or 3,000 in Ulster, was to have a power to erect a manor, with a court baron and court leet, and all other privileges belonging to a manor, and with deodands, fugitives goods, &c. (*Howard's Rev. Exchequer*, Vol. I.)

ADVENTURERS.

(b) The soldiers were those who served under Cromwell. In the year 1652, the kingdom being reduced, and the rebellion ended, the English parliament published an ordinance, called an "Ordinance for the settling of Ireland;" in which, declaring it was not their intention to extirpate the whole nation, almost all the Papists in the kingdom, who were worth 10*l.*, were divided into four classes:—First, All persons, who before the 10th of November 1642 had contrived, acted, or aided the rebellion, murders, or massacres, which began in October 1641, and all Jesuits, priests, &c. who had any way contrived, aided, or abetted, and all persons who, since the 1st of October 1641, had slain any person not bearing arms for the English, or who, not being then maintained in arms under the command and pay of the Irish against the English, had slain any person maintained in arms against the parliament of England, should not lay them down in twenty-eight days and submit to their authority, were excepted from pardon of life or estate. Secondly, All persons (not being comprehended in any of the former qualifications) who had borne command in the war of Ireland against the parliament of England, were to be banished during the pleasure of the parliament, and to forfeit two thirds of their estates, and their wives and children to be assigned lands to the value of the other third, where the parliament should appoint. Thirdly, All persons of the popish religion (not being comprehended in any of the former qualifications) who had resided in the kingdom, at any time from the 1st of October 1641 to the 1st of March 1650, and had not manifested their constant good affection to the interest of the Commonwealth of England, were to forfeit one third of their estates, and to be assigned lands to the value of the other two thirds, where the parliament should appoint. Fourthly, All persons who resided in Ireland, within the time aforesaid, and had not been in arms for the parliament, or manifested their good affection to its interest, having an opportunity to do so, were to forfeit one fifth of their estates. (*Id.* p. 189.)

SOLDIERS.

By an Ordinance made in the year 1653, for the satisfaction of the Adventurers and Soldiers, the forfeited lands in the counties of Limerick, Tipperary, and Waterford, in the province of Munster, the King's and Queen's Counties, East and West Meath in the province of Leinster, Down, Antrim, and Armagh, in the province of Ulster, together with the county of Louth, if necessary, except the barony of Atherdee, were to be charged with the sums due to the Adventurers and Soldiers, according to the rates before mentioned; and to be divided

tenements, and hereditaments of which all or any of the Adventurers were possessed the 7th day of May 1659, having been allotted or set out to them, or enjoyed by them, as Adventurers, in satisfaction of and for their adventures, shall be confirmed and made good to them, their heirs and assigns for ever. Sec. vii. That all officers and souldiers, their heirs and assigns, who have been and are of the army in Ireland, and to whom lands have been given out in satisfaction of their arrears, for their service in that our kingdom, and have by the general convention of Ireland, or by any other publick act, declared submission and obedience to us according to our declaration of the 4th of April last, dated at Breda, shall enjoy their respective estates conferred on them for their arrears for service in the kingdom of Ireland, according to their respective possessions on the said 7th day of May 1659, in full satisfaction for all such arrears for which lands were set out to them respectively as aforesaid; excepting always out of all such settlements, to the said Adventurers and Souldiers, all estate and estates, where bribery, forgery, perjury, subornation of witnesses used or false admeasurement set forth and discovered before 20th December 1661; estates of those excepted in the English act of oblivion, church lands, persons endeavouring disturbance and manifesting aversion to the restoration and government; estates, mortgages, &c. decreed by the Courts of Claims or the Exchequer, and not reversed, although set out to Adventurers, Souldiers and others, who were to be reprised. Sect. ix. That all commissioned officers, their heirs or assigns, who were in regiments, troops, or companies raised in Ireland or transported out of England, and served our Royal father or ourself, in the wars of Ireland, at any time before the 5th of June 1649, other than those who have received lands or money, for their pay due unto them since the 5th of June 1649, shall be satisfied their respective personal arrears out of the forfeited lands, tenements and hereditaments, undisposed of to Adventurers or Souldiers in the counties of Wicklow, Longford, Leitrim and Donnegall, Connaught and Clare, lying within one mile of the river Shannon (or of the sea), commonly called the Mile-line, houses and tenements forfeited in walled towns and corporations, and lands thereunto belonging, not already set out to the Adventurers and Soldiers, satisfaction being first made to such Protestants, who, on leases

divided between them by baronies, moiutely, by lot: and for the satisfaction of the arrears of the forces there, who should be immediately disbanded, several other proportions of forfeited lands were set out; particularly the forfeited lands beginning at the end of one statute mile round the town of Sligo, and so winging upon the coast, nor above four miles distant from the sea, which was called the Mile-line.

Pursuant to this Ordinance, Commissioners were appointed for putting it into execution, and for taking a survey of the forfeited lands, and for appointing a court for receiving and hearing claims: and by the instructions given to the Commissioners, the second and third classes of the Irish above mentioned, who forfeited one third or two thirds of their estates, were to be transplanted into the province of Connaught and the county of Clare, for the proportions to be allotted to them, except the mile-line; which line was intended to cut off the communication of the Irish with the sea, as the Shannon was to cut them off from the rest of the kingdom.

Pursuant to these ordinances and instructions, Commissioners of delinquency sat at Athlone, to determine the qualifications of Papists; and upon their decrees, other commissioners, who sat at Loughrea, set out the transplantations. Many of the Papists did not take out their decrees, and the transplantation was not completed at the Restoration; although all the Papists lands were seized and sequestered, and the surveys were in hand, actually taking; and being thus seized and sequestered, on account of the rebellion, the Act of Settlement vested them in the Crown. (*Id.* p.190.)

OFFICERS.

(c) This class comprehends,—1. The Protestant Officers who had served in his Majesty's army and under his authority, from the beginning of the war to 1649, thence called the Forty-nine Officers. They claimed arrears to amount of 1,800,000*l.* sterling; and on account of their loyalty, none of these arrears had been paid, when Cromwell assigned lands to satisfy the rest of the army. 2. Protestants, whose estates had been given to Adventurers or Soldiers. 3. Innocent Papists, who had been dispossessed, although they had sued out decrees, and obtained possession of lands in Connaught or Clare, in lieu of their former estates; the Irish, who had submitted and adhered constantly to the peace, and who had served faithfully under his Majesty's ensigns abroad, thence called Ensign-men.

With a view to a clearer understanding of the Acts of Settlement and Explanation, the Treaties between Charles I. and the Irish may be necessary. About 15th September 1643, a cessation of arms was agreed upon, previous to which, the king directed the following commission to the Marquis of Ormond, dated August 31st, 1643.—“WHEREAS by Our letters, dated 23d April and 3d May last, We have authorized you the said Marquis of Ormond to treat and conclude with Our subjects in this Our kingdom, who have taken arms against Us and Our authority, for a cessation of arms for one whole year: Now know ye, that We, reposing special trust in your fidelity, wisdom and circumspection, do, with the advice of Our Lords Justice, and according to the tenor of Our letters, dated at Our Court at Oxford, 31st July last past, hereby authorize you to treat and conclude for Us and in Our name, with Our said subjects, upon a cessation of arms for one whole year, to begin at such time as to you shall be thought fit, and upon such articles or agreements as to you in your wisdom shall seem necessary for Our service, or otherwise to break off the treaty as you shall see cause. And We do by these presents declare, that in case a cessation shall be agreed upon, We will, upon the conclusion of said treaty, cause Our Letters Patent of confirmation, under the great seal of this Our kingdom, to be made in the most effectual manner, for the further ratifying and confirming of said cessation, as shall be necessary.” (*Inrolled*, 19, 24 *Car. I. d. r.* 18.)

On 30th July 1646, articles of peace were agreed upon between his Majesty and the Irish, previous to which, his Majesty issued his commission, dated from Buckingham, 24th June 1644, to the Marquis of Ormond, to the following effect:—“WHEREAS since the cessation of arms agreed and concluded on within that Our kingdom, the agents employed from thence have presented unto Us several propositions, in order to a firm and settled peace, which We are obliged to desire, if the same may be had with Our honour, and the safety of Our Protestant and other good subjects within that kingdom; and because many of the particulars proposed by them cannot be so well weighed, considered and judged of as by those whose experience and knowledge of the constitution and affairs of that kingdom enable them to judge, as well of matters of circumstance as substance, and for that what agreement and conclusion soever shall be made for peace must be prepared and digested for Acts of Parliament, which must be penned and debated by Our Council there, and transmitted from thence to Us here. Know ye, therefore, that We, reposing special trust and confidence in your courage, wisdom, fidelity, and circumspection, of which you have given Us great and eminent testimony and assurance, do constitute, ordain and appoint you by these presents, to be Our Commissioner, to treat concerning the settling and establishing a firm and perfect peace within that Our kingdom, &c. And if you find it not reasonable to consent to such propositions as shall be made for a full peace, then to conclude of a further cessation of arms, in such manner as you shall think most behoofeful for Our service, and the good of that Our kingdom.” (*Inrolled*, 19, 24 *Car. I. f. r.* 17.)

Afterwards, on the 17th January 1648, peace was finally concluded; several who had submitted to the king laid down their arms, and upon the general transplantation were allotted their proportions, according to the settlement of Ireland, in the province of Connaught and Clare. Others, who attended King Charles II. in his exile, waited his restoration for a restitution of their estates. (*Howard*, 192.)

leases or contracts for leases, had built or repaired houses, or planted orchards or gardens, with some exceptions. Sect. x. That all commissioned officers before 1649, who have had no satisfaction in lands or otherwise, set out to them for services since 1649, shall be immediately, out of the whole security that is above assigned for the satisfaction of arrears before 1649, satisfied 12s. 6d. in the pound of what is due to them. Sect. xi. That such Protestants, whose estates have been given out for satisfaction for Adventurers or Souldiers, or otherwise disposed of to any other persons, shall be forthwith restored to their former estates, and a reprizal of equal value, worth and purchase forthwith assigned to such Adventurers or Souldiers, as shall be removed out of their said estates. Sect. xvi. And whereas we understand, that by the late usurped powers, during the distempers of these times, many have been dispossessed of their estates, merely for being Papists, and have sued out decrees, and are possessed of lands in the province of Connaught and county of Clare, in compensation of their former estates; which being an act of their own, we might without any injustice deny to relieve them in, yet so willing are we that any interest intituling itself to equitable mercy might not be disappointed, we declare all innocent Papists, being such as shall prove themselves to have been faithful and loyal unto and never acted against our Royal father or ourself, since the 22d October 1641, though they have sued out decrees, and are possessed of lands in the province of Connaught or county of Clare, in lieu of their former estates, by the 2d May 1661, provided that the said lands in Connaught and Clare so allotted to the said Papists be restored unto us to reprize others; &c. Sect. xxiv. And as to those who continued with us, and served faithfully under our ensignes beyond the seas, we think fit and accordingly declare, that they shall be restored to their former estates, if said decrees for compensation not obtained. Sect. xxv. Several noblemen and gentlemen, who have for reasons known unto us, in an especial manner merited our grace and favour, without being put to any further proof, shall be restored to their former estates. Sect. xxxi. We esteem it necessary to declare, that it is our firm intention forthwith to call a Parliament in that our kingdom, and effectually to recommend unto our Chief Governor or Governors, Privy Council and our said Parliament, the establishing by laws there all the particulars mentioned in this our declaration, and such others as shall be found necessary for the good of our people there. Sect. xxxii. And because we are too credibly assured, that in the decrees and judgments given for forfeited lands in the province of Connaught and county of Clare, much injustice and fraud hath been used, we shall recommend the whole review of that business to our Chief Governor or Governors for the time being, and our Privy Council and Commissioners, or some of them, to the end that whatever irregularity may by their care and wisdom be rectified, and the just part thereof confirmed: as also, that a suitable Act for Ireland, for confirming judicial proceedings there in the Four Courts, may be there past; and another Act for ratifying all decrees and judgments in the Court of Claims and Exchequer of Dublin, and the claims of our Protestant subjects of Ireland, that so all our subjects being legally settled and confirmed in their lives, properties, and estates, they may without fear for the future betake themselves to mend the ruines and desolations of so long and bloody war, and live in comfort and unity.—The foregoing Extracts will be found to comprise the heads of the most important *clauses* of the King's Royal Declaration, which it was intended should form the basis of the intended proceedings for the settlement of the nation. The Commissioners appointed (e) for putting the declaration into execution sat at Dublin, and published Proclamations requiring all adventurers, &c. within forty days to bring in the particulars of their estates, and all

Commissioners for
putting the King's De-
claration into execution.

(d) The King's Declaration is embodied in the Act of Settlement. (*Irish Statutes*, Vol. II. ed. 1786.)

(e) By privy signet, dated at Whitehall, 19th February 1660, patent of commission, dated 19th March following, Richard Earl of Cork, Lord High Treasurer of Ireland; Edward Lord Viscount Conway and Kilulta; Arthur Lord Viscount Valentia, Vice Treasurer and General Receiver; Hugh Lord Viscount Montgomery of the Ardes, Master of Ordnance; John Lord Viscount Massarene; Francis Lord Angier; John Lord Kingston; Richard Lord Baron of Coloony; Sir James Barry knight, Lord Chief Justice of the Court of Chief Place; James Donnellan esquire, Lord Chief Justice of the Court of Common Pleas; John Bysses esquire, Lord Chief Baron of the Court of Exchequer; Sir Henry Titchburn knight; Sir Robert Forth knight; Sir James Ware knight; Thomas Pigot esquire, Master of the Court of Wards and Liveries; Colonel Arthur Hill and Colonel Marcus Trevor; Sir Francis Hamilton knight and baronet; Sir Arthur Forbes baronet; Sir Oliver St. George knight and baronet; Sir John Cole baronet; Sir Richard Lane baronet; Sir Paul Davis knight; Sir George Lane knight; Sir John Stephens knight; Sir William Domville knight, Attorney General; Sir Allen Broderick knight, Surveyor General; Sir Audley Mervyn knight, Chief Serjeant at Law; John Temple esquire, Solicitor General; Col. John Ponsonby; Henry Warren and Dudley Cooley esquires; Serjeant Major George Rawden; Dr. William Petty; James Cuffe and Thomas Browne esquires; were appointed Commissioners for putting in execution his Majesty's gracious Declaration of the 30th November 1660, for the settlement of Ireland, and satisfaction of the several interests of Adventurers, Soldiers, and others, with instructions annexed. (*Patent inrolled*, 13 Car. II. 2. p. d. r. 30.)

Commissioners appoint-
ed for putting the De-
claration into execution.

It being found inconvenient to the King's service, that the names of all his counsel learned in the law should be inserted as commissioners in the commission of claims, and for settling the several interests of the kingdom of Ireland, there being want of counsel to assert his right and title on several occasions for claims; his Majesty, by letter from Whitehall, 11th March 1660, directed that the names of the Attorney and Solicitor General should be left out and exempted out of the Commission of Claims, to the end they might intend his service the more immediately, and not be hindered from making out his right and interest, by being judges of the claims. (*Inrolled*, 13 Car. II. 1. p. d. r. 11.)

On 24th May 1661, Edward Lucas, Theophilus Eaton, Robert Woods, Watkin Sands, Robert Pue, Thomas Elliott, and Arthur Freake, were appointed sub-commissioners to the commissioners for putting in execution the King's declaration for the settlement of Ireland, for the more orderly and effectual execution thereof, according to the instructions to the commission annexed. (*Inrolled*, 13 Car. II. 4. p. d. r. 3.) On 4th September following, further sub-commissioners were appointed. (*Pat. inrolled*, 13 Car. II. 5. p. f. r. 8.)

Sub-Commissioners

Register to the Commissioners.—Thomas Kennedy gent., upon his petition, and pursuant to letters from Whitehall, 5th Dec. 1660, was appointed General Register, principal and chief clerke to the Trustees for the adjudication of the qualifications and claims, and all other interests expressed and limited by the King's declaration, of the 30th of November 1660, for the settlement of Ireland, February 6th, 1660.—(*Inrolled*, 13 Car. II. 3. p. d. r. 14.) Sir James Shaen knight, appointed principal and chief clerke to the commissioners for executing

all persons to enter their claims before the first of May 1661. Very little however was done by them, for want of a law to warrant their proceedings. The Judges declared their opinion, that the declaration, being only an act of state, was not a warrantable rule to follow in the disposing of men's estates. Very few or none of the Irish entered their claims.

executing his Majesty's declaration for the settlement of Ireland, for the better execution, registering, and transacting all and singular the matters and things relating unto or mentioned in the said declaration, and instructions thereupon, and also the register or keeper of all the books, writings, records, or papers, concerning or relating unto the same, during good behaviour, with such fees and advantages as should be established and allowed him by the Lord Justice of the kingdom, hereby revoking a former grant of the said office, made or pretended to be made to Thomas Kennedy gent., during pleasure, Westminster, 30th March 1661.—(*Inrolled, 13 Car. II. 2. p. f. r. 8.*) Examiner to the Commissioners: William Fitzgerald gent., appointed sole examiner to the said commissioners or trustees, for the adjudication of qualifications and claims, during behaviour, with such salaries, fees, &c. as the trustees should allow in that behalf, February 13th, 1660. (*Inrolled, 13 Car. II. 2. p. f. r. 5.*) He was again appointed, by letters from Whitehall, 23d April, and by patent, 12th August 1662. (*Inrolled, 14 Car. II. 3. p. d. r. 34.*)

Register, Chief Clerk,
and Examiner.

Register, Chief Clerk, and Examiner.—The King judging it requisite that a fit and able person should be appointed to execute the office of register, chief clerk, and examiner to the said commissioners, as also to attend them to take affidavits and make entries of record, transact and execute all such matters and things as should be ordered and decreed by them; and for that his Majesty had already had experience of, and reposed great trust and confidence in the good affections, abilities, and integrity of Sir John Percival of Dublin, bart., did erect, constitute, and create the said office of General Register, Chief Clerk, and Examiner to the said Commissioners, and appointed Sir John to that office during behaviour, with such fees as the L.L. should appoint, with directions for an instrument to be passed under the great seal, containing a suspension or discharge of Sir James Shaen knight from the execution of the place of register to the commissioners for putting in execution his Majesty's declaration and instructions. P. Seal, at Hampton Court, 7th June, Patent, 1st August 1662. (*14. 4^a p. f. r. 11.*) The register was directed to account, every year, for, and pay unto the L.L. or other chief governor for the time being, one full third part of the clear profits of his office (the necessary charges to be expended in and about the execution thereof being first deducted): the same to be issued out and paid from time to time, as the King should appoint. His Majesty by letters from Oxford, dated 24th January 1665 (*18^o 2^a p. d. r. 5.*), and by patent, dated 7th June 1666, granted to Sir Peter Harvey knight, Alexander Bence and Robert Reading esquires, and to the survivor and survivors of them, one full third part, share, or proportion, of all sums of money, profits, benefits, and advantages of the said office or place, to be accounted for and paid as aforesaid, and a power to the L.L. to call the registers to account from time to time as aforesaid, for the said money. (*Inrolled, 17, 18, 19 Car. II. 3. p. f. r. 12.*)

Commission to collect
Money, &c.

In order to collect all money applicable to the uses expressed in his declaration, the King, by letters dated 6th February 1660, signified, that Roger Earl of Orrery, and John Viscount Massarene, should receive all sums of money, as by his declaration of the 30th of November 1660, for the settlement of Ireland, were to be paid to the uses in said declaration expressed, and they to proceed in execution of the said employment as by the said declaration and instructions were prescribed; and that the money so to be received by them should be paid to the V. Treasurer, and by him issued as should be directed; and for their pains in collecting, receiving, and paying over the same, and discharging the salaries of the ministerial officers and other contingent charges relating thereto, they should be allowed 6d. in every 20s. they should receive and pay. In pursuance of which directions a commission issued to them 15th March following; but in the Act of Settlement his Majesty's expressions concerning the appointing such as he designed to receive the money payable by his said declaration, and the said Act, being such as he should particularly appoint to collect and receive the same, his Majesty, for removing all doubts and scruples, commissioned their lordships to receive and collect the same, wherein they were to proceed according to the directions of the said declaration, instructions, and Act, during their respective lives. P. Seal at Hampton Court, 18th June, Patent of Commission, 1st October 1662. (*Inrolled, 14 Car. II. 4^a p. d. r. 22.*)

Commission to ascertain
value of Lands set out
to Adventurers and
Soldiers.

Commission (for ascertaining the Value of the Lands set out to Adventurers and Soldiers); to Roger Earl of Orrery; Arthur Earl of Anglesey; John Viscount Massarene; Sir James Ware knt., Auditor General; John Byssie esquire; Sir John Percival bart.; Sir George Lane knt.; and Sir Audley Mervyn knt.; any three or more of them:—"WHEREAS the two half year's rent from the Adventurers and purchasers of lands from transplanted persons, in the province of Connaught and county of Clare, and their assigns, and the half year's rent from the Soldiers, payable by Our Order according to Our Declaration, is a distinct payment, no ways applicable to the other satisfaction propounded by our said Declaration, and that it will require the endeavours of persons well experienced in the affairs and interests of that Our kingdom, to prescribe expedients for discovering the several estates of Adventurers and Soldiers there, and such purchasers, so as to prevent the frauds which may be attempted by concealing the real values of those estates, which, if truly discovered, will bring in a considerable sum of money to Us; Our will and pleasure is, that you cause a commission to pass to empower the aforesaid persons to make full and effectual enquiry into the full yearly value of the lands that are or shall be set out for the respective Adventurers and Soldiers, or deficiencies of the said Adventurers and Soldiers; that upon discovering the same, We may receive the several half year's value mentioned to be contributed or bestowed upon Us, as in said Declaration is expressed; wherein also they are to pursue such further directions and instructions, as they have or shall from time to time receive from Us, or the Chief Governor for the time being, Whitehall, 31st January 1661." (*14^o 3^a p. f. r. 1.*) The Commission passed 22d March following. (*Idem r. 36.*) The said persons were again appointed to the same purpose (pursuant to letters from Whitehall, 20th December 1662) (*Idem d. r. 16.*, and the first of that month, *R. 18.*) by commission, dated 13th January 1662.—(*19^o 1^a p. f. r. 35.*) viz., to make full and exact inquiry into the full yearly value as well of the lands that were or should be set out for the respective Adventurers and Soldiers, or their deficiencies, and purchasers of the lands of transplanted persons, or to grantees by letters patent, as the same were worth in 1659, pursuant to a clause in the Act of Settlement, with power to nominate and appoint sub-commissioners in the several counties of Ireland, and to make a due return of their proceedings, ingrossed under their hands and seals, and close sealed, with all convenient speed; that upon discovery of the same, and of their final order, declaration, or returns thereupon into the Exchequer, ascertaining the sums payable, which by a reasonable construction of the said Acts might be intended should proceed and go before the incurring the penalty for non-payment, his Majesty might receive the several half year's value mentioned to be bestowed upon by said Acts.

Measures were accordingly taken to convene a Parliament for the purpose of removing these objections, and to carry the King's declaration into legal execution. Parliament accordingly met in Dublin on the 8th day of May 1661, and after considerable discussion, the celebrated Act in question was passed, whereby it was, amongst other things, enacted: Sect. 1. That all honors, manors, castles, houses, places, lands, tenements, and hereditaments, &c., in all and every the counties, baronies, cities, towns corporate, and walled towns in this kingdom, forfeited from 23d October 1641, and vested and settled in the real and actual possession and seizin of his Majesty, his heirs and successors, without office or inquisition, notwithstanding their former proprietors not attainted, all which (except as therein excepted and provided) were to be and remain in his Majesty, his heirs and successors, to the intent to be settled, confirmed, restored, and disposed, to and for such use and uses, and in such manner as in and by the said declaration, and instructions thereafter following, and by the Act, and the true intent and meaning thereof is declared, limited, meant, or appointed. Sect. 73., et seq. The declaration and instructions were enacted and confirmed with additions. The King to appoint Commissioners for executing the Act, whose proceedings should be effectual. Several enlargements of the times limited for making the claims. Sect. 102. All lands of ecclesiastical persons, in 1641, restored. Sect. 107. Improvements or appropriated tithes forfeited given to the church for ever, and settled on the incumbents. Sect. 109. Reasonable recompence out of the improvements allotted to those to whom they would have been restored, if no such annexation to the church made. Sect. 132. All letters patent since 30th November 1660 ratified and confirmed, subject to the survey of rights and interests. Reserving however a power of revocation to the King, his heirs or successors. Sect. 169. The interests of innocent persons saved, notwithstanding the disposition and settlement of several lands and tenements to particular persons. Sect. 177. Manors, lands, tenements, &c. restored to hospitals, alms-houses, and charitable uses. Sect. 184. For the better prevention of all future rebellions, and to the end, that the subjects of Ireland might be likewise secured against all insurrections or attempts for the time to come, and the kingdom be the better planted and improved, the Governors and Council, during seven years, may make rules for better planting, with Protestants, the lands not restored: And also, Sect. 185. For the better regulation of cities, walled towns, and corporations. Sect. 186. Lands in the province of Ulster, not to be set out in satisfaction of adventurers, but wholly reserved for reprisals. Sect. 204. This Act not to extend to the disposal of any lands, tenements, or hereditaments, whereof the Provost, Fellows, and Scholars of the holy and undivided Trinity, near Dublin, of the foundation of Queen Elizabeth, were seized in fee, in 1641, to whom all forfeited leases thereof are granted and confirmed. Sect. 219. The Governor and Council given full power and authority to erect another college, to be of the University of Dublin, to be called by the name of the King's College, and to raise yearly £2,000 for the endowment thereof, same to be regulated by statutes of the King's appointment. Such were the leading enactments of the Act of Settlement. An Act in defence and reprobation of which some hundreds of volumes have been since written; but, under which, with subsequent explanations and additions, the landed property of Ireland has been disposed of and settled, and continues, in great part, to be enjoyed to this day (f).

lands thereunto belonging, not already set out to the Adventurers and Soldiers in satisfaction of debentures and arrears (satisfaction being first made to such Protestants who on leases or contracts of leases have built or repaired houses, or planted orchards or gardens, except the houses, tenements, and hereditaments in the town of Wexford, already set out to Martin Noel and John Arthur, and then in their possession), out of the benefit arising from the redemption of mortgages, statutes staple, where lands are not already disposed of to Adventurers or Soldiers (excepting always hereout such mortgages, statutes, judgments, as any forfeiting person in Ireland has or had of the estate of me, James Marquis of Ormond, Lord Steward of His Majesty's household, or the Lady Marchioness my wife;) and the said securities are by the said Declaration committed to the hands of such persons, for the uses in the said Declaration mentioned, as we the Duke of Albemarle and Marquis of Ormond shall appoint to be lett and sett for the best advantages, and to the ends in the said Declaration expressed." In pursuance hereof the duke and marquis appointed the aforesaid persons to be the persons intrusted by virtue of the said Declaration, "who are to do every act and thing intrusted to their care by the said Declaration, and to lett and sett for the best advantage, and to the ends in the said Declaration expressed, the said several securities, and to return us from time to time an account of their proceedings; and where they shall give us information of the allowances necessary for such persons as shall be employed in this service, we shall assign the same out of the profits of the said securities, according to the power to us given by the said Declaration. In witness whereof we have hereunto set our hands and seals, this 2d day of March 1660, in the 13th year of his Majesty's reign. Ormond. Albemarle." (*Inrolled, 12 Car. II. 2. p. d. r. 10.*)

The foregoing commission was renewed 22d May 1662, to several of the same Commissioners and others.—(*Inrolled, 14 Car. Patent, August 20th, 1662. (*Inrolled, 14 Car. II. 4. p. f. r. 21.*)

(f) Amongst the great collection of national documents preserved in the Record Tower of His Majesty's castle of Dublin, are nine large folio volumes, relating principally to the Acts of Settlement and Explanation, and the various transactions connected with them. These volumes, which are considered highly valuable, contain, in general, entries of petitions, reports, orders of council, statements of individuals rights and interests, remonstrances, letters patent, cases, letters of the king and privy council, and numerous other documents, during the reign of Charles the Second, which throw considerable light on the civil affairs of Ireland throughout that eventful period of its history. These volumes, which appear to be contemporaneous with the affairs of which they treat, were presented to the Commissioners of Records by the Lord Maryborough, when Chief Secretary of the Lord Lieutenant in 1812; they have been since carefully preserved, among their other books and documents in the custody of the Secretary, in the Record Tower, and have been found useful in investigations concerning descents and titles. In order to extend the utility of this collection, a copious repository of the contents of each volume, accompanied with indexes of the names of persons and places, has been formed by one of the Sub-Commissioners.

pointed to carry the
Act of Settlement into
execution.

Act of Explanation.

Immediately after the passing of the Act, Commissioners were appointed to carry it into execution (*g*); but the Act itself afforded no satisfaction to any of the conflicting parties whom it concerned. The violent cabals and contentions which it occasioned in Ireland, embittered the only moments of peace until then enjoyed by the King, and certainly swayed many of his subsequent measures with regard to this Island. The Irish complained, that adventurers, parliamentarians and regicides, had been secured in the possession of estates of which the natives had been unjustly deprived, and the forty-nine officers, many of whom were ancient inhabitants of the kingdom, and had lost large possessions, although they had been distinguished for their adherence to the royal cause, complained that several grants and provisoes had been obtained from the King, and inserted in the Act, which rendered the payment of their arrears uncertain or insecure. In this state of things, if an Act of Parliament had been before necessary to give legal effect to the King's declaration, further legislative interference was now become more so, to explain, amend, and make various alterations in the Act of Settlement.

A Bill of explanation prepared for the purpose was accordingly transmitted to England in September 1663, which, after many preliminary precautions, and much anxious consideration, received the royal assent in 1665. By this Act the several lands and possessions vested in the King by the Act of Settlement are declared to be vested in him, freed and discharged from all estates tail, and from all conveyances made before the 23d October 1641, by any tenant in tail. Persons not theretofore adjudged innocent were for ever barred from any claim. The Adventurers and Soldiers to be confirmed in two months. No Adventurer, Soldier, Forty-nine officer, or Protestant purchaser in Connaught or Clare, before the 1st September 1663, in possession of lands restorable, to be removed until he should have as much other forfeited lands set out to him. Directions given when the Adventurer, Soldier, &c. was in possession of more or less than his two-thirds. All deficient adventurers to be satisfied in the same barony or county. Commissioners to cause books to be made and returned into the Exchequer, and upon a certificate, under the hands and seals of the major part of the Commissioners, the Lord Lieutenant, &c. authorized and required to cause letters patent to be passed without any further letters or warrants from his Majesty. Directions where an estate for life only recovered by an Irish claimant, and where left in the person against whom decree made. Letters patent confirmed against the King, discharged of all estates tail, freehold and inheritance, &c. not therein saved. The Protestant officers, serving before 1649, confirmed in lands not already decreed away by the Commissioners. Protestant purchasers from transplanted persons, to hold two thirds, and no person to be reprimed above two thirds. All lands vested in the King, or restored by virtue of any decrees, or this or former Act, subject to quit-rents as in the former Act, except those in Ulster, to be thenceforth charged with two-pence the acre. Power given to the Lord Lieutenant and Council to abate quit-rents. Decrees of innocence confirmed, with certain exceptions and restrictions, and such decrees *quoad hoc*, not to entitle the claimants to any other lands. Innocent Papists left to the course of law for the recovery of their possessions. In case of doubts or defects arising or appearing in the Act, the Commissioners might, within two years next after their first sitting, acquaint the Lord Lieutenant and Council therewith, and that such order of amendment or explanation as they should make in writing, within said two years, and enrolled in Chancery, should be as effectual as if it were part of the Act. These few brief extracts point out the principal enactments contained in this explanatory Act, which exceeded in length both the King's declaration and the Act of Settlement itself. It was, in general, favorably received by the Adventurers, Soldiers, and Forty-nine officers; but among the native Irish its reception was very different. Commissions under the great seal issued to Commissioners to carry its provisions into execution (*h*); and the termination of their labours closed "the settlement of Ireland."

(*g*) Henry Coventry esquire; Sir Edward Deering bart.; Sir Richard Rainsford, Sir Thomas Beverley, Sir Edward Smith, knts.; Edward Cooke and Winston Churchill, esquires; any three or more of them; were appointed Commissioners for putting into execution the Act of Settlement. By privy signet, dated at Hampton Court, 18th July 1662.—(*Inrolled*, 14 Car. II. 3^a p. f. r. 8.) Mr. Coventry being a groom of the King's bed-chamber, his Majesty could not so far dispense with his service to his person, as to permit him any longer to attend the execution of the said commission, which he revoked by letters from Whitehall, 11th, and by patent, 26th May 1663; and in his place appointed Sir Allen Broderick knt. (*Inrolled*, 15 Car. II. 3^a p. f. r. 42.)

On 7th October 1662, Col. John Jeffreys, John Lake, Richard Warde, Samuel Bathurst, John Pysing, Thomas Tilson, Thomas Kerton, and James Bulteele, gentlemen, were appointed Commissioners for inquiring after the values of the estates of persons restored or reprimed, or so to be by the Act of Settlement, and to make return thereof to the Commissioners for putting the said Act in execution. (*Inrolled*, 14 Car. II. 4^a p. d. r. 23.)

On 24th October 1662, a commission issued to review and rectify the decrees for Lands in Connaught and Clare, directed to Arthur Earl of Anglesey; James Lord Santry, Chief Justice of the King's Bench; John Bysses esquire, Chief Baron of the Exchequer; Thomas Piggott esq., M. W.; Sir James Ware, Auditor General; Sir Robert Forth knt.; Henry Coventry esq.; Sir Edward Deering bart.; Sir Richard Rainsford knt.; Sir Thomas Beverley knt.; Sir Edward Smith knt.; Col. Edward Cooke, and Winston Churchill esq.; any three or more of them. The King being too credibly assured, that in the decrees and judgments given for forfeited lands in the province of Connaught and county of Clare, during the late times of usurpation, much injustice and fraud had been used in the obtaining and procuring of the same: And whereas by his declaration for the settlement of Ireland, and the Act passed in consequence thereof, his Majesty had published and declared, that he would recommend the whole review to the Chief Governors, Privy Council, and Commissioners for putting the said Act in execution, or some of them, to the end that what irregularity should be found in those proceedings, might by their care and wisdom be rectified, and the just part thereof confirmed. His Majesty therefore directed a commission to the persons aforesaid, empowering them to inquire and inform themselves how the said decrees and judgments had been obtained, and what injustice, fraud, or irregularity had been used in obtaining or procuring the said decrees; and whether they were given according to the rules that were then prescribed for obtaining of the same; and to do all other matters and things whatsoever, that might lead to the better discovery of the premises, and as should most consist with the advantage of the King's service. (*Inrolled*, 14 Car. II. 3^a p. d. r. 19.)

(*h*) On 1st January 1665, Sir Edward Smith knt., Chief Justice of the Court of Common Pleas; Sir Edward Deering bart.; Sir Allen Broderick knt.; Sir Winston Churchill knt.; and Edward Cooke esq.; were appointed Commissioners for putting in execution the

The Commissioners appointed for the purpose immediately proceeded under the Act, and pronounced several decrees and adjudications, on which, by fiats from the Lord Lieutenant, letters patent were passed under the great seal. The contents of these patents, together with those previously passed under the former Act, will be found in the first part of this Appendix. In the course of these proceedings certain doubts having arisen, the Commissioners proposed the same, as empowered by the Act, to the Lord Lieutenant and Council, who, by an order, bearing date the 9th of April 1666, and inrolled in the court of Chancery, ordered and declared, first, that all estates, &c., which on the 23d October 1641, or at any time since, belonged to any

Whereas the said Commissioners must necessarily be at great expense and charges attending this service, his Majesty was graciously pleased, for their better encouragement in the said service entrusted to them, to appoint, that the sum of £20 the week for their common table or diet, and the sum of 25s. the week, severally, for their lodgings, (which had been allowed to the former Commissioners for executing the said Act of Settlement,) be allowed and paid unto them, or to whom they should appoint, (being £26 5s. the week,) by the Vice Treasurer, by convenient monthly payments, to begin the 26th day of October last, being the first day of that session of that Parliament, in which the said explanatory Act was passed, and to continue during their continuance in the said employment. S.; Sir William Domville knt., Attorney General; Sir John Temple knt., Solicitor General; any four or more of them appointed. Commissioners to inquire, find out, and fully inform themselves by juries in each county, examination of witnesses, and all other lawful ways and means, what were the true yearly value of all the lands in Ireland, which were returned by the Civil Survey to belong to any Irish Papist, Popish Recusant, or Roman Catholic, according to the value the said lands were let at in the year 1659; and of all other lands wherein any adventurer or soldier, his heirs, executors, or assigns, had any confirmation or settlement by virtue of the Acts of Settlement, and to return their proceedings into the Court of Chancery. Privy Seal at Whitehall, 21st November 1666. (*Inrolled, 18 Car. II. 2. p. d.*) and patent 17 January 1666. (*Inrolled, 18 Car. II. 1. p. d. r. 20.*) Their commission was renewed upon the passing of the Explanatory Act; and they were authorized to do and execute all other acts and things for the better discovering, assessing, and ascertaining of the year's value of the said lands, and for the due and orderly collection and payment thereof, as by the said Acts was directed, limited, and appointed, and to make return of their proceedings with all convenient speed into the Exchequer. Commission to inquire value of Popish lands granted to Protestants.

Commission, dated at Westminster 5th December 1668, to inquire into the value of the lands of the (1649) officers, and to make abatements of the quit-rents imposed thereon by the Acts of Settlement, directed to the Commissioners for executing the Acts of Settlement and Explanation. Whereas by the Act of Explanation, a power was given by the Chief Governor and Council, at any time during the space of three years next after passing the said Act, to make such abatement and moderation of quit-rents payable by the said Act, as they in their judgment should think fit; which time is now elapsed, without such relief given as may be necessary, by reason whereof the officers who served the King in Ireland, before 5 June 1649, their heirs and assigns, part of whose satisfaction is to be by land lying in the counties of Wicklow, Longford, Leitrim, and Donegal, and who have not taken out their certificates, nor perfected their patents, are likely to be greatly burthened, if the whole quit-rent due and payable for those lands should be rigorously exacted from them; and divers great quantities of other lands yet undisposed of, and still remaining in the stock of reprisals, are of small yearly value, but charged with so great quit-rents, according to the strict rules of the said Acts, that divers of our good subjects there, would rather chuse to want their reprisals, than accept of lands charged with a quit-rent, if not exceeding, at least amounting to the full value of the lands, or very near the full value, whereby great quantities of land are like to lie waste, and all plantation and improvement thereupon to be much discouraged; unless We be graciously pleased to provide for the ease and relief of Our good subjects in these cases: Wherefore, being desirous that all the persons interested might, upon due examination of all circumstances requisite to be considered, receive such abatement and moderation of the said quit-rents, as might be most agreeable to justice and equity; and reposing very great trust in the care and fidelity of Sir Edward Smith, and the other Commissioners for executing the Acts of Settlement, commissioned them to inquire into and examine the values of all the lands undisposed of, and remaining on the stock of reprisals; and of all other lands in the aforesaid counties, to which the said (1649) officers and soldiers were any ways entitled, and whereof no certificates and patents had been hitherto granted; and to cause such abatement and moderation to be made of the said quit-rents, as they should think fit, according to the annexed rules and instructions. Commission to inquire into the value of Lands of (1649) Officers, &c.

Commissioners or Trustees for the (1649) officers. Commission, dated at Whitehall, Oct. 26, 1675, directed to Henry Viscount Moore, and others. Upon a late address made to the Duke of Ormond, from the Trustees appointed to manage the security of the (1649) officers, desiring that he would revive the commission granted to them by George late Duke of Albemarle and him; his Grace, considering their long intermission from settling upon the execution of their said commission, did, for his better advice and direction, communicate the matter to the committee for the affairs of Ireland, when they sat by his Majesty's order to consider the whole state of the said security; and the said Committee having, for their better information therein, referred the inquiry touching the validity of the said former commission to the Attorney General; and although by his report there appeared not any defect therein, yet the Duke, for avoiding of all scruple, being desirous that the King would make an immediate delegation from himself, and by his royal authority fortify and corroborate the proceedings of the said Trustees, in the future prosecution of their trust, his Majesty renewed the said commission, and appointed the aforesaid Commissioners to be the persons intrusted, according to the intents and purposes of his Majesty's declaration of the 30th of November 1660; and Richard Barry gent. to be their register or chief clerk.

Trustees for (1649) Officers.

Pursuant to letters from Whitehall, dated 13th February 1676, Denny Muschamp, Thomas Buckridge, Richard Barry, William Jeffries, and William Brett, esquires, were appointed Commissioners to compound with any persons in possession of any part of the (1649) security not yet discovered, and the benefit of the discovery not yet allowed to any person by the Trustees appointed for the management of the said security, and to agree with them for the mesne profits due thereout unto the King, and for right and title by the Acts of Settlement to be granted unto them, at such rates, and for such sums of money, to be paid by them for the use of the (1649) officers, as to them or any three of them should be thought fit. Patent, March 17, 1676. (*Inrolled, 29 Car. II. 4^o p. d. r. 14.*) George Houghton esquire was afterwards appointed Commissioner in the room of Richard Barry deceased.

Commission to compound as to (1649) security.

On the 2d July 1681, Col. Cary Dillon, Captain Richard Coote, Major Rupert Bellingsly, Captain Thomas Flower, Denny Muschamp, and William Ellis, were appointed Commissioners or Trustees for the security of the (1649) officers. (*Inrolled, 33 Car. II. 1. p. d. r. 48.*)

Trustees for (1649) Officers.

Abatement of quit-rents. Pursuant to letters from Whitehall, dated 3d December 1675, Arthur Earl of Essex, Lord Lieutenant; Michael Archbishop of Dublin; Lord Chancellor; Richard Earl of Arran; Sir Robert Booth knt., Chief Justice of the Common Pleas, and Sir Charles Meredyth knt., appointed Commissioners for the abatement of quit-rents, by patent, dated 25th June 1676. (*Inrolled, 28 Car. II. 1. p. d. r. 31.*) The King in his letters directed, that the Lord Lieutenant, and such four of the Privy Council as he should nominate, should be commissioned to inquire into and examine the values of all and singular such lands, tenements, and hereditaments, which they should find or judge not to be of sufficient value to satisfy the quit-rents, by the Acts of Settlement and Explanation payable, and the arrears of quit-rents and other public charges due for the same, or the quit-rents whereof do near amount to the yearly value of such lands; and upon due information and knowledge had of the value thereof, to cause such abatements and moderation to be made (by orders in writing) of the said quit-rents and arrears, as they in their judgments and consciences should think fit.

any Irish Papist, or which had been returned by the civil survey, or Down survey, as belonging to any Irish Papist, and which at any time after the 23d of October 1641, were seized or sequestered, or vested in his Majesty, upon account of the rebellion, (excepting such estates as had been decreed to Innocents, and belonged to them on the 22d of October 1641, and excepting such lands as had been restored to the former proprietors, by some clause in either of those Acts, and excepting any lands for which some judgment or decree was had by a Protestant, in the late court or pretended Court of Claims, or in any of the four courts, before the 22d day of August 1663,) should at all times thereafter, in the four courts sitting in Dublin, and in all courts of justice, and in all trials, actions, and suits, both in law and equity, as well between his Majesty and any of his subjects, as between party and party, without any further proof, be always construed to have been seized, sequestered, and, from the 23d October aforesaid, forfeited to his Majesty, without any inquisition or office found, &c. ; and, secondly, that after the Commissioners for executing the said Acts have adjudged any of the said lands so vested or forfeited to his Majesty, to any person or persons, who by said Acts are entitled thereunto, and should have granted their certificates accordingly, and letters patent should be thereon passed, the rights, titles, and interests of all persons whatsoever who had not been adjudged innocent, as well such as were Protestants as Papists, should be thereby concluded and barred for ever, other than such rights and titles which should be reserved in the letters patent, and such rights as are the proper act of the party, to whom such letters patent shall be granted, or of those under whom he claims as heir, executor or administrator, and other than such debts, leases and payments whereunto the same are by the said Acts made liable ; and that the said lands, &c. in the said letters patent contained should be by the said Acts confirmed, according to the several estates thereby granted, against the King, and all other persons, bodies political and corporate ; and thirdly, that all Adventurers and Soldiers, their heirs and assigns, should have and enjoy an estate of inheritance in fee simple, in such lands as should be certified to belong to them, unless some lesser estate should be therein expressly limited ; and that in case such lesser estate should be so limited, the party should be reprimed out of other lands, so as to make up his two third parts, by the said Acts intended to him, equal in worth and value to others who should have estates in fee simple certified and granted to them. This order of council, having by the Act the force of a law, thenceforth put an end to all doubts respecting the titles of the grantees.

Having attempted thus far to detail the principal points of the Acts in question, another record of great national importance, viz. the Down Survey, which though anterior in point of time is so intimately connected with them, yet remains to be noticed ; but as this subject has been anticipated by very satisfactory returns to the Board, contained in the First Vol. of their Reports and Proceedings, pa. 495, and Second Vol. pa. 14, it becomes unnecessary here to do more than merely refer to these Reports and Returns (?). It may however be observed, that in general the admeasurement of the Down Survey is that contained in the Grants under the Acts of Settlement and Explanation.

IN the Rolls office are preserved the Inrolments of the several grants of lands, &c. made under the Acts of Settlement and Explanation, comprised in 53 Rolls, all in good preservation. These grants being the consummation of all the proceedings under the Acts, are esteemed the principal Records connected with them, and as such, form the greatest, as they certainly are, the most important part of this Appendix. Abstracts from them were made by the late Mr. Lodge ; but as these abstracts were apparently compiled by that meritorious individual, rather for purposes of private research, and for his own well deserved emolument, than to meet the eye of the public (*k*), they required some modification of form, to adapt them to the present purpose. That form which was considered the most judicious has been adopted in the present instance, and will be found to contain every thing material in the original grants. Commission to inquire into the state of transplanted persons. His Majesty, by letters from Whitehall, dated 22d Sept. 1675, (*Inrolled*, 28 Car. II. 4. p. f. r. 46.) directed this commission to issue, directed to Sir Robert Booth, the Chief Justice of the Common Pleas ; Sir Charles Meredith knt., Chancellor of the Exchequer ; Thomas Radcliffe esquire ; Henry Hene esquire, B. E., and Sir Richard Reynell knt. ; with authority to them, or any three of them, to hear and determine the claims of all transplanted persons in the said province and county, touching the decrees they had, or the lands set out to them in lieu of said former estates, except only such lands as had been already disposed of by certificate from the said late Commissioners for executing the said Acts, and to state the quit-rents due out of said lands, and to examine what irregularity had been in the setting out and disposal of the said lands, and to confirm the just part thereof ; and to inquire of all lands forfeited by the said Acts, in the said province or county, and to dispose of the same towards the satisfaction and reprimol of such transplanted interests as remained yet unsatisfied and deficient, and to grant certificates thereof, in order to the passing letters patents thereupon, and to observe such instructions as the Chief Governor and Privy Council should think fit to give them, from time to time, for the better execution of this commission. June 25, 1676. (28 Car. II. 4^o p. d. r. 21.) The instructions are annexed, R. 23., and Thomas Maule of Dublin, esquire, was appointed their register during behaviour.

Down Survey.

(i) The Down Survey of the forfeited lands, before the burning of the council office in 1711, consisted of 31 folio volumes, divided into baronial and parochial maps. At present, there remain in the office of the Surveyor General, Dublin Castle, about 1,430 maps, of which 260 are of the baronies, and the remaining 1,170 of the parishes. An original volume of the baronial maps is at present preserved in the quit-rent office, Custom House, Dublin, for which *vide* 2d Vol. Reports on the Public Records of Ireland, pa. 632.

(*k*) Mr. Lodge concludes his Abstracts with the following note :—" This is a fair transcript of all the lands and hereditaments granted by the Acts of Settlement and Explanation ; which, I believe, may be depended upon, as I have copied it with the utmost care and exactness ; and finished the same (by God's most gracious assistance) the 2d day of September, 1750 24th Geo. II. LAUS DEO."

several

several counties and baronies mentioned in the grants, will enable an inquirer to find any name, either of person or place, contained in the originals.

Mr. Hardiman's
Report on
Schedules and
Inventories.

The next and only remaining documents in the Rolls office connected with the above Acts, are the original certificates or decrees of the court of Claims, on which the preceding grants were founded. Each of those instruments contains the original fiat, signed by the Lord Lieutenant, authorizing the grant to be passed. To these there is a small book of reference, containing an alphabetical List of the names of the persons on whose behalf the certificates or decrees were made. This List is also given in the Appendix, immediately following the abstracts of the grants, as well to identify the existence of the original instruments, as to afford a clue to them in any instance in which it may hereafter appear that a certificate might have passed although not followed up by letters patent.

2. Original Decrees of
Court of Claims.

2. CHIEF REMEMBRANCER'S OFFICE.

IN the office of the Chief Remembrancer of the Exchequer are preserved the following documents connected with the Acts of Settlement and Explanation :—1. "Inrolments of the Certificates or Decrees of the Court of Claims for Adventurers, Soldiers," &c. (the originals of which, as already mentioned, remain in the Rolls office.) 2. "Inrolments of Decrees of Innocents." 3. "Inrolments of Connaught Certificates." 4. "Inrolments of adjudications in favor of the (1649) officers, formerly denominated the 49 lots.

3. Certificates for
Adventurers, Soldiers.
4. Decrees of Inno-
cents.
5. Adjudications for
(1649) Officers.

With respect to the first, viz. the inrolments of the certificates or decrees of the court of Claims for Adventurers, Soldiers, &c. Indexes of the names of all persons and places which they contain, with references to the originals on each roll, are also given, by which means every roll, and the parchment skins or membranes of each, and the persons and places mentioned in those important national documents, may be immediately found, and this facility is the more valuable from this circumstance, that it is apprehended, that of the originals in the Rolls office many have been lost or injured by time or accident, and that of the transcripts preserved in the Auditor General's, or as now termed, in consequence of a recent regulation, the Vice Treasurer's office, (to which I shall immediately have occasion to revert,) many have been burned, so that the indexes here given will prove the only complete references to this class of Records, the particular contents of which have been hitherto almost inaccessible to the public for want of proper references or indexes.

As to the second, third, and fourth classes of Records, before enumerated, now remaining in the office of the Chief Remembrancer, viz. the decrees of innocents, Connaught certificates and adjudications for the (1649) officers, similar indexes of the names of all persons and places which they contain are also given, with references to the membranes of each roll. These are the original inrolments, and are evidence of the King's title, which the letters patent from the Crown are supposed not to be. For this reason, and particularly, as no corresponding documents, similar to those of the certificates for Adventurers, Soldiers, &c., are to be found in the Rolls office, and but imperfect transcripts in the Auditor General or Vice Treasurer's, even greater necessity existed for supplying these indexes than the former, and for including them in the Appendix, which will thus be found to contain complete references to the contents of all the principal Records emanating from the Acts of Settlement and Explanation.

3. AUDITOR GENERAL'S OR VICE TREASURER'S OFFICE.

HAVING alluded to the Auditor General's or Vice Treasurer's office, it remains to be observed, that in this department there are preserved numerous transcripts (though generally imperfect, some having been destroyed by fire,) of the various records before enumerated. These transcripts were deposited here, from time to time, for the purpose of ascertaining the King's rents, and other dues payable under the several grants and adjudications; and though not original records, they have been frequently resorted to (and even received as evidence in courts of justice) as such, for want of sufficient or satisfactory references in the other repositories where the originals are preserved. The references therefore, and indexes to the originals, contained in this Appendix, supersede the necessity of referring to these transcripts in the Vice Treasurer's office, particularly as they cannot be received in evidence (if objected to) while the originals are extant. The following however is a correct view, as well as I could collect, of the various documents relating to the proceedings under the Acts of Settlement and Explanation contained in this department. I. Forty-three Volumes of Transcripts of Grants of Lands, &c. with an imperfect Index to each Volume, a general Index of the patentees names to the entire, and two Volumes, containing abstracts of the lands granted. To this class of books an additional Index, as to the lands only, has lately been formed, under the order of the Board; but the following abstracts, from the fifty-three rolls of original inrolments of these grants, in the Rolls office, will be found, with the help of the county and baronial Index, to contain all the particulars comprised in these forty-three Volumes, and their several Indexes. II. Eight Volumes of Transcripts of Certificates and Decrees of the Court of Claims, with a General Index. To these books there is a separate reference on a parchment roll, indorsed, "An Alphabet to Certificates;" and a further though not sufficiently full Index has been lately formed by order of the Board; but the following General Index to the original Inrolments of these Certificates and Decrees in the Chief Remembrancer's office comprehend every matter contained in these eight Volumes. III. Six Volumes of Transcripts of the Decrees of Innocents, with a General Index, judiciously formed by Mr. Henry Harding, Clerk of the Records in this department; and a Roll referring by counties to the six Volumes, but not exactly agreeing with them. There is another book of reference in this office, viz. "An Abstract of such Lands as are decreed to Innocent Papists, but omitted in the Roll of Innocents," with a reference to the Record where titles are to be found. The

annexed Index to the original Inrolments of these Decrees of Innocents, preserved in the Chief Remembrancer's office, contains every matter contained in these six Volumes, and their several Indexes. IV. Three Volumes of Connaught Certificates, termed in this department "Transplanters," with an Index to each Volume. An additional Index has been formed to these three Volumes by the Sub-Commissioners on this department, under the order of the Board, but it appears to be partial as to the names of places. Here also it will be found that the full Indexes, contained in the following part of this Appendix, to the original rolls of Connaught certificates, preserved in the Chief Remembrancer's office, embrace the contents of these three Volumes, and their respective references. V. A roll termed, "The Great Rent Roll," containing the quit-rent assessments. These quit rents are all contained in the following abstracts.

The Vice Treasurer's office, therefore, does not appear to possess any original Records, which, in addition to these already detailed and preserved in the Rolls and Chief Remembrancer's offices, could appropriately form any part of the Appendix to this Report, or tend to elucidate the proceedings or measures adopted under the Acts of Settlement and Explanation. The following books, however, particularly the first class, are considered valuable, viz. 1. The Civil Survey and Distribution Books; 2. An Abstract of Ecclesiastical and Forfeited Lands decreed in the Court of Claims and Exchequer in 1657 and 1658, with a Reference to the Records; 4. A Volume of Orders of the Court of Claims, 1661; 5. A Volume of Orders of the Court of Grace for defective Titles, 1684; and 6. Inquisitions. These are all documents of great value, and it may be necessary to consult them in any researches requiring more information than can be obtained from the ensuing Appendix.

In addition to the foregoing, there are also the following Records, some of which have a distant, others a more immediate relation to the proceedings under the Acts in question, viz. The Outlawries and Attainders in 1641, on record in the Court of King's Bench, (preserved in an iron chest, the key of which remains with the Lord Chief Justice,) and the Inquisitions on Attainder in the Rolls and Chief Remembrancer's offices. As Schedules of these latter documents are contained in the Supplement to the Eighth Annual Report of the Board, and abstracts of their contents are now printing under its order, they are mentioned here only for the purpose of directing attention to them, and that no Record within my knowledge, having any reference to the Acts of Settlement or Explanation, should remain unnoticed.

FORFEITURES IN 1688.

Forfeitures in 1688.
Act 11 & 12 Will. III.
appointing Trustees,
&c.

BY an Act passed in the Parliament of England, in the 11th and 12th years of William III. intituled, "An Act for granting an Aid to his Majesty, by Sale of the forfeited and other Estates and Interests in Ireland, and by a Land Tax in England, for the several purposes therein mentioned," it was enacted, That all the honors, manors, lands, possessions and hereditaments within the realm of Ireland, whereof any person or persons who stood convicted or attainted of treason since the 13th day of February 1688, or who should be convicted of treason before the last day of Trinity term 1701, or who stood convicted of treason, by reason of having been found by inquisition to have died, or been slain in actual rebellion, since the said 13th day of February 1688, was or were seised or possessed, or interested in, or entitled to, on the 13th day of February 1688, or at any time since, in their own right or to their own use, or whereof any person or persons was or were seised or possessed, or interested in, to the use of, or in trust for them, or any of them, on that day or at any time since, or whereof the late King James II. or any in trust for him, or to his use, was seised or possessed, or interested in at the time of his accession to the Crown of England, should be invested in Francis Annesley, James Hamilton, John Baggs, John Trenchard, James Isham, Henry Langford, James Hooper, Sir Cyril Wyche, John Cary, Sir Henry Sheers, Thomas Harrison, William Fellows, and Thomas Rawlins, their heirs, executors, administrators and assigns, according to the several estates and interests which the said person, &c. had therein, on the said 13th February, or at any time afterwards, to the end that the same might be sold and disposed of, to and for such uses as are expressed and declared by the said Act; and where any of the said persons were seised of an estate tail only in the said honors, manors, &c. the same are thereby enacted to be vested in the said Trustees, and their heirs, in fee simple, to be sold and disposed of as aforesaid, with a saving for persons comprised within the articles of Limerick or Galway.

All grants, demises, surrenders, releases, custodiams, &c. or dispositions, since the said 13th of February 1688, made or granted under the Great Seal of England and Ireland, or the Seal of the Exchequer in Ireland, or by Act of Parliament in Ireland, or otherwise, of any of the said forfeited or forfeitable estates or interests, or of the estate of the said late King James, or of any of the quit-rents, crown-rents, composition-rents or chiefries belonging to the Crown of Ireland, are thereby declared null and void. Power was given to the Trustees to reward discoverers of any such forfeited estates concealed, by giving them such proportion of the value, after sale thereof, as they should think fit. All persons whatsoever, bodies politick and corporate, having any estate, right, title, interest, &c. charge or incumbrance whatsoever, in or to the lands, tenements, &c. vested in the Trustees, before the 13th of February 1688, by reason of any settlement, judgment, &c. affecting the said estates, were thereby directed, on or before the 10th of August 1700, (which time was by 12 and 13 William III. c. 10. Eng. enlarged to the 25th of March 1702,) to enter their claims and demands thereto before the Trustees; or in default thereof, every estate, right, title, interest, &c. in or to the said premises was to be void, and the estates so liable thereto discharged of and from the same. And the Trustees were to hear and determine such claims before the 25th of March 1701. The Trustees to be a Court of Record, and the claims may be certified, and a copy, good evidence. After the expiration of the time for making such claims, the

the Trustees were thereby directed before the 25th of March 1702, (which time was afterwards, by 1 Ann, c. 13. Eng. enlarged to the 24th June 1703,) to sell the estates and interests vested in them and not claimed, and the estates and interests claimed, as soon as the claims should be determined; such sale to be made to any persons, bodies politic or corporate, by cant or auction.

Mr. Hardiman's
Report on
Schedules and
Inventories.

On the first of June following, the Trustees commenced their proceedings, and on December 15th, 1699, made a Report to the House, wherein they state, That the persons outlawed in England, since the 13th day of February 1688, on account of the late Rebellion here, amount in number to 75, and in Ireland to 3,921; their additions, and counties in which they were outlawed, appear in a book delivered in with this Report, No. 1. The estates that said persons, or any of them were possessed of or interested in, either in law or equity, since the 13th day of February 1688, that came to our knowledge; together with the proprietors names, the number of acres, the county and barony in which they lie, the value of them per annum, and the total value, appear in a book delivered in with this Report, No. 2. But the gross number of all acres belonging to forfeiting persons in each county, the yearly and total value (esteeming a life at 6 years purchase, and an inheritance at 13 years, which we apprehend to be at this time the value of the lands of this kingdom,) appear to be 1,060,792 acres, worth per annum £211,623. 6. 3. value; total £2,685,130. 5. 9. (1) besides the several denominations in the several counties to which no number of acres can be added, by reason of the imperfection of the surveys. The proportions of these lands restored to the old proprietors, by virtue of the articles of Limerick and Galway, and by his Majesty's favour, contain 233,106 acres of land, amounting, yearly, to £55,763. 6. 6. value; total £724,923. 4. 6. Estates restored to the old proprietors by reversal of outlawries or his Majesty's pardon. The reversals are of two sorts, such as have been in pursuance of adjudications. (The estates restored by reversals are already computed under the consideration of persons already adjudged.) The other sort are such as have been reversed by his Majesty's or the late Queen's letters, or orders to the Lord Justices, which, with all pardons, and the considerations inducing the same, passed since the defeat of the Boyne, amounting to 65, appear in a book delivered in, No. 5. The estates restored to the several persons pardoned, or that have their outlawries reversed by his Majesty's favour, contain 74,733 acres, worth per ann. £20,066. 8. 3. value; total £260,863. 7. 3.

Trustees First Report.

Grants made and custodiams yet in being. "There have passed, since the battle of the Boyne, under the great seal of Ireland, 76 grants and custodiams, a book whereof, with the dates of the letters patents and the considerations, we have delivered in with the Report, No. 6. Some of the most considerable grants we here particularly lay before your honours, the number of acres and considerations. To the Right honourable the Lord Romney, 3 grants now in being, containing 49,517 acres, in consideration of services done. To the Right honourable the Earl of Albemarle, 2 grants now in being, containing 108,633 acres in possession and reversion, in consideration of services done. To William Bentinck esquire, commonly called Lord Woodstock, 135,820 acres of land, no particular consideration mentioned in the grant. To the Right honourable the Earl of Athlone, 2 grants, containing 26,480 acres, in consideration of services done in the reduction of Ireland.

Lands granted in 1688,
and their value.

Mr. Hardiman's
Report on
Schedules and
Inventories.

To the Right honourable the Earl of Galway, one grant, containing 86,148 acres, in consideration of many good and faithful services by him performed. To the Right honourable the Earl of Rochfort, 2 grants, containing 39,871 acres, in consideration of services done. To the Marquis of P-z-r, 2 grants, containing 30,512 acres, in consideration of services done. To the Right honourable Lord Coningsby, 5,966 acres, with several chiefrys, tythes, and many houses in the city of Dublin, with £1,000 mortgage, in consideration of services done. To the Right honourable the Lord Montjoy, 11,070 acres, for 21 years, in consideration of his services done in the war of Ireland, the losses he suffered in his estate, the imprisonment of his father in the Bastile, and his being killed in the battle of Steynkirk. To the honourable Thomas Keightly esq., 2 grants, containing 12,381 acres, for 99 years, as a portion for his daughter Mrs. Catherine Keightly, who was a dependant on her late Majesty Queen Mary of ever blessed memory, and consideration of a pension of £400 per annum, and his losses in the war. To Colonel Gustavus Hamilton, 5,382 acres, whereof 1,900 are no part of the forfeitures, in consideration of his great and early services in the war of Ireland, his wading through the Shannon, and storming the Tower of Athlone, at the head of the English grenadiers. To Doctor John Lesly, 16,077 acres, in consideration of his early services in the war of Ireland, his great expense in raising and arming considerable numbers of men, and fighting at the head of them in several engagements. To Thomas Pendergast esq. now Sir Thomas Pendergast bart., 2 grants, containing 7,082 acres, upon the most valuable consideration of his discovering a most barbarous and bloody conspiracy to assassinate the King's most excellent Majesty, to destroy the liberties of England, and in consequence the Protestant religion throughout Europe. To Mr. John Baker, 1,647 acres, in consideration of the great and memorable services his father, Colonel Henry Baker, performed in the defence of the city of Londonderry. To Thomas Corry esq., 2 grants, one of a mortgage of £2,000 in fee, of several lands in the county of Wicklow, due to Sir Edward Scott from the Earl of Tyrone; the other of 1,725 acres. The rest of the grants appear in the book, No. 6, and are comprehended in the general values. All the acres mentioned in this Report are meant plantation acres, which bear a proportion to English as 441 is to 264. The value of the goods and chattels (forfeited) are so uncertain, no estimate made of them. Debts due by judgment and statute, and a few mortgages due to forfeiting persons restored, amount to £120,013. 13. 10. There are yet to be computed 297 houses in the city of Dublin, 36 houses in the city of Cork, with 226 houses situate in the several cities and towns of this kingdom; together with 61 mills, 28 fairs and markets, 72 rectories and tythes, chief rents amounting to £283 per annum; and 6 ferries and fisheries, the forfeitures of persons not restored, value, in gross, £50,000; the woods of the kingdom now standing on the forfeited estates, not restored, may be worth £60,000. The Report then notices "the general waste committed on the forfeited woods, particularly on the woods of Sir Valentine Browne, in the county of Kerry, where to the value of £20,000 has been cut down and destroyed; and the waste on the woods of the late Earl of Clancarty's estate, in grant to the Lord Woodstock, is computed at £27,000: and indeed so hasty have several of the grantees, or their agents, been in the disposition of the forfeited woods, that vast numbers of trees have been cut and sold, for not above 6d. a piece (*m*); the like waste is still continuing in many parts of this kingdom, and particularly on the lands of Feltrim, within 6 miles of Dublin, and the woods of O'Shagnessy, in the county of Galway, purchased by Toby Butler esquire, for about £2,500, which was valued to above £12,000." This Report is signed Fra. Annesly, John Trenchard, Ja. Hamilton, Hen. Langford.

Waste committed on
the forfeited Woods.

Trustees 2d Report.

The Trustees, in 1701, made a second Report of their proceedings to Parliament (*n*), and, in the year 1703, completed the weighty and complicated duties which devolved on them under the Act, by an auction, as directed, of the estates and interests which had not been previously granted or restored. They immediately after executed deeds of conveyance to the several purchasers. These Transfers are enrolled in the Court of Chancery, and full Abstracts from them are comprised in this Appendix (*o*); which, (including also the abstracts and indexes under the Acts of Settlement and Explanation) will be found to contain the greatest body of useful information, on the important subjects to which it relates, ever given to the world, in many respects resembling, and in some even exceeding in interest, that of the celebrated Domesday book of England.

Conveyances executed.

All which I respectfully submit, this 22d day of March, 1825.

James Hardiman.

Cause of the decay and
destruction of the
Woods of Ireland.

(*m*) Here we discover, perhaps, the principal cause of the destruction and decay of the woods of Ireland, which, until this period, were numerous and extensive; but for nearly half a century after, the country was almost totally destitute of grown timber. The several Acts of Parliament since passed, particularly during the reign of our late venerable Sovereign, for encouraging the planting of trees, have succeeded to a great degree in remedying this national evil.

Documents relating to
Forfeitures of 1688.

(*n*) The several books of returns referred to in the Trustees Reports are supposed to remain among the Parliamentary papers, London. In the First Vol. of the Reports on the Records of Ireland, pa. 145, and Second Vol. pa. 614, will be found, Schedules of the deeds, writings, muniments, securities, records, books, accounts and papers delivered, on the 3d of August 1703, to the Commissioners of the Revenue by the surviving trustees, pursuant to an Act of Parliament made in England, 1 & 2 Ann, intituled, "An Act for advancing the Sale of the Forfeited Estates in Ireland," &c. They are now preserved in the Custom House, Dublin, where they are not only a very useless appendage, but likewise inconvenient for the purpose of public and professional reference. It would therefore be desirable (as the reasons which caused them to be lodged with the Commissioners of the Revenue have long since ceased) that these documents should be transferred to some other more eligible situation or repository. Whatever plan shall be adopted, with respect to the quit-rent books and papers, might perhaps be usefully extended to this department.

Forfeited Lands un-
sold vested in the
Crown.

(*o*) By an Act passed 33 Geo. 3. chap. 49, intituled, "An Act for revesting in His Majesty the Estates forfeited in 1688 yet remaining unsold," all honours, manors, lands, &c. which stand vested in his Majesty, and remain unsold and undisposed of, were declared to be vested in his Majesty, his heirs and successors, to his and their own use, discharged from the orders, appointment and disposition of the Parliament in Ireland; provided always, that nothing therein contained should extend or be construed to extend to defeat or avoid any lease of the said lands, or any part thereof, theretofore lawfully made.
